

Flexible Application, Making "Accumulation" Easier

One function of accumulation conveying is to ensure that goods are allowed to stop and accumulated on the conveyor line without stopping the conveyor drive and without any obvious increase to motor load, to avoid the adverse influence of frequent start-stop on the driving unit.

Grow up with Damon Industry

Damon 2280 Series with Plastic Replacing the Steel

In recent years, synchronous pulley rollers have become more and more popular in the markets due to the precise positioning transportation and high transportation efficiency so that the customer demands are growing. Synchronous pulley rollers, featured with more powerful transmission capacity, can be applicable to medium-and-heavy-load transportation. It is featured with compact structure, simple design and tension-free. It can be applied to dust-free rooms and other environment with much strict requirements matched with PU synchronous belts. Compared with traditional belt drive, it can work under certain severe environmental conditions and is

Anti-rust Performance? Accuracy?—No, No, No, Damon will settle it with one step.

Anti-rust oil is the key, and the anti-rust oil adopted by Damon is the one that can be sprayed on the shafts at both sides of driving rollers. The ideal purpose of applying anti-rust oil is that the accuracy tolerance, installation and use standards can be met on the basis of rust protection, while, such kind of anti-rust oil adopted by Damon Industry, by plenty times of practical application, has been highly recognized by many customers in the filed of express delivery, logistics, airport and security inspection. After 20 years of highly attention on roller R&D, quality, service and details, we are capable of providing high-

In the race against time, the company grew from scratch, from small to large, survived and grew. In 2017, our sales exceeded 2 billion, and the company continued to grow steadily with a 20%-30% annual performance. And the staff team also continued to grow as well. In a few years, the number of employee from less than 100 to almost 300 . The staff team has grown and it has also been accompanied by the continuous growth of staff.
